FJD Trion P1 Handheld LiDAR Scanner – 4D prisma

$ 0.00 0 Cart

Sale!

FJD Trion P1 Handheld LiDAR Scanner

$ 13,990.00 Original price was: $13,990.00. $ 9,990.00 Current price is: $9,990.00.

Package Includes

TRION Model Software – Basic Permanent License

1x Carry box

2x Batteries

1x Charger

1x Insta360 X3 Camera

FREE RTK Module

SKU FJDTrionP1 Category LiDAR & Scanners Tags LiDAR , Scan , Scanner Brand: FJDynamics

Indoor, Outdoor, Underground, All Day Long

Wherever you go, the P1 can capture what you see. Map the environment with intricate details inside and outside, from ornate architecture to hidden infrastructure, from forensic evidence to urban vegetation analysis. Powerful SLAM technology enables the P1 to work in direct sunlight or even at night, in locations that may be inaccessible with traditional methods.

Compact Yet Mighty

Pick up the FJD Trion P1 whenever you want to take a closer look at your world. Weighing in at only 1 kg or slightly over 2 lbs, the P1 fits in a messenger bag and can work all day with easy battery swaps, recreating your environment in minutes.

SMARTER CONNECTIVITY THAN EVER

FJD Trion P1 Portable 3D Laser Scanner, paired with up to 2cm of relative accuracy, provides 3D LiDAR scanning results that are more precise, intricate, and lifelike than ever before.

Incredible Range

With the ability to capture 3D data from a distance of up to 40 meters at a reflectivity level of 10%, Trion P1 offers a visualization experience that brings the scanned data to life in real-time through the use of a point cloud.

FJD TRION SCAN

Real-Time Visualization of 3D Point Clouds Software

• Displays the scanned project files, storage capacity, and battery life

• Visualizes the point cloud in real-time

• Tracks real-time path

• Manages and downloads the project files

Download

FJD TRION MODEL

Point Cloud Post-Process Software

• Denoises and colorizes point clouds

• Stitches point clouds, maps shadow, transforms coordinates, and does automatic plane fitting

• Classifies point clouds, produces 2D drawings, and builds 3D models

Rebuild What You See

SPECIFICATIONS

DOWNLOAD DATASHEET

Item Trion P1 Weight 1.05 kg Scanning Range 40m@10% reflectivity Scanning Point Frequency 200,000 points/second Dimensions 160 × 120 × 270 mm (excluding camera) Camera Resolution 5760 × 2880 @ 30 fps Camera Field of View (FOV) 180° Processing/Display Real-time Protection Class IP54 Number of Laser Heads 1 Laser Class Eye-safety Class I Relative Accuracy Up to 2cm Storage Capacity 512 GB Operating Temperature -10℃ ~ 45℃ Battery Life 2H (grip battery, room temperature)

AEC

P1 3D floor plan scanner helps you make more informed decisions on your projects from blueprint to QA/QC with building surveys, scan to CAD&BIM, as-built documentation, floor plans, and stockpile volumes.

Forestry and Vegetation Analysis

Manage and monitor tree inventory with a quick walk in the forest with our handheld laser scanner. Measure crowns, analyze breast diameter and tree height using precise point cloud data.

Public Safety

Leverage point cloud data to enhance disaster preparedness and recovery plans with FJD Trion P1 Handheld Laser Scanner. Quickly record evidence and crime or accident scenes for immediate and accurate forensic documentation.

Property Management

3D room scanner enables the accurate assessment of structural integrity, effective planning of spaces, and identification of areas that require repair or renovation. This reduces uncertainty in investment decisions by providing insights via a rich spatial dataset.

Robotics

Facilitate communications between teams before and during robotics deployment. Plan routes and enhance robot obstacle avoidance with 2D maps and 3D models of the envrionment.

Media and Entertainment

Craft new realities based on real-world inspirations. Whether you're creating video games, virtual tours, or cinematic environments, capture the essence of both indoor and outdoor settings.
